Baby Pictures and Words

It is never too early to introduce books and reading to babies. Reading aloud to your baby is a remarkable way of fostering brain development and important in the development of language skills.

Reading to your child is the most valuable thing you can do and babies benefit immensely. Not only does it help develop baby's eye muscles through focusing on pictures but it helps to encourage language skills. Each and every baby learns by sight, sound and feeling. When a baby sees, hears or feels anything, brain connections form and eventually create a piece of knowledge.
